DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/07/06 has been entered.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-9, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Chernyshev (WO-99/29425) for the reasons of record set forth in the Office Action dated 11/13/05.

4. Claims 1-8, 10-14, 16 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Morita (US 2003/0170160) for reasons of record set forth in the Office Action dated 10/13/05.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Morita for reasons of record set forth in the Office Action dated 10/13/05.

Response to Arguments

7. Applicant's arguments filed 08/07/06 have been fully considered but they are not persuasive. Applicant argues that the present claims distinguish over the applied prior art by the recitation of the term "dumped" in the preamble of the amended claims. In response to applicant's arguments, the recitation "dumped" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

8. Moreover, the Examiner notes that applicant has characterized the term "dumped" as connoting "a single packing element that had been hand placed on a flat surface" (response at page 5, penultimate sentence). The applied prior art articles constitute such articles and, assuming, arguendo, that the term "dumped" is entitled to patentable weight, this limitation is met by the prior art.

9. In light of the above, applicant's arguments have been fully considered, but are not found to be persuasive.
